About me

I'm a Software Engineering graduate from FPT University with a strong interest in front-end development for web and mobile. I'm seeking a fresher position to apply my skills and grow in a professional environment.

Experience

Internship Course at FSOFT

01 - 04/2024

FPT Software Academy

- Project: Fresher Academy Management System (FAMS)
- Role: Intern Frontend Developer
- Developed key UI features such as Email Management and Student Reservation modules.
- Used ReactJS, TypeScript, Tailwind CSS, Ant Design to build a responsive and user-friendly interface.
- Collaborated in an 8-member Agile team to ensure seamless UI/UX and API integration

University Startup Project

09 - 12/2024

Jobee - CV Maker Platform with AI Integration

- Role: Frontend Developer
- Developed key UI components and pages using ReactJS, TypeScript, Ant Design, and Tailwind CSS.
- Implemented main features including CV Builder, Job Listings, and Employer Dashboard.
- Enhanced UI/UX and responsiveness
- Collaborated with the BE team to ensure API integration and AI-features.
