- Teamwork skills.

ABOUT ME

I am a Frontend Developer passionate about creating modern, high-performance web applications with a strong focus on UI/UX. I constantly seek innovative ways to enhance user experience by integrating cutting-edge technologies and thoughtful design principles.

EDUCATION

- 05/2021 - Present
Software Engineering
FPT University HCM
 - GPA: 3.19/4.0
 - Outstanding Student Fall Semester 2024

EXPERIENCE & PROJECTS

- 01/2024 - 04/2024
Intern
FPT Software Academy
 - Fresher Academy Management System (FAMS)
 - Role: Intern Frontend Developer
 - Developed UI components (Button, Search, Filter) and key screens (Email Management, Student Reservation).
 - Used ReactJS, TypeScript, Tailwind CSS, Ant Design to build a responsive and user-friendly interface.
 - Ensured smooth UI/UX and collaborated effectively within an 8-member team.
- 09/2024 - 12/2024
University startup project
Jobee
 - Jobee - CV Maker Platform with AI Integration
 - Role: Frontend Developer
 - Developed key UI components and pages using ReactJS, TypeScript, Ant Design, and Tailwind CSS.
 - Implemented CV Builder, Job Listing, and Employer Dashboard for seamless user experience.
 - Optimized state management with Redux & React Query for efficient data handling.
 - Enhanced UI/UX and responsiveness
 - Collaborated with the BE team to ensure API integration and AI-powered features.
